This "first-of-its-kind" conference will address the field of faculty development specifically for academic health science centres world-wide. The program will draw upon international expertise and include plenaries, paper and facilitated poster sessions, workshops, and social events. It will be held in conjunction with the Canadian Conference on Medical Education in May 2011 (AFMC/CAME) and the grand opening of the Li Ka Shing Knowledge Institute at St. Michael's Hospital - an international education and research centre. We look forward to seeing you there!
